

TU Delft MOOCs for PhD candidates

As of September 2022 all TU Delft PhD candidates can get full access to MOOCs offered by TU Delft for free. This includes access to all course content, access to graded assignments and a verified certificate upon completion of the MOOC.

For an overview of the TU Delft MOOCs go to: edx.org/school/delftx

Full access voucher

In order to get full access to the MOOC of your choice, the **PhD supervisor** needs to request a voucher by sending an email to edX-TLS@tudelft.nl containing the following information:

- The url of the course run you wish to use the voucher for,
- How many vouchers are needed,
- The emailadres(es) of the PhD candidate who is going to participate in the MOOC,
- The rationale for this request: PhD training.

The full access voucher will then be requested with edX, sent to the PhD candidate and the PhD supervisor will be informed when the voucher has been sent out.

The process between the request and the delivery will take up to 10 working days.
