

Expression of Interest (Eoi) MSCA-Postdoctoral Fellows -2021

The application should include the following:

I. Provisional Title: It serves a general introduction to the proposal, framing it conceptually, thematically, and in time and space.

II. Abstract: Short summary (200 words), including keywords.

III. Question(s)/Hypothesis, Aims and Goals: Clearly and succinctly spell out the question(s) or hypothesis that drive your research and carefully articulate the aims and ambitions of your proposed study.

IV. Originality: how does your research relates to the current state of the art and represents a step further for your research community

VI. Disciplinary Approach: Introduce your research methodology and position it in its larger disciplinary (or cross/ or inter/ or trans-disciplinary) framework.

VII. Research significance: Explain why you want to do your Marie Curie Postdoctoral Fellowships in Delft? How would a fellowship in Delft enhance your future career prospects after the fellowship? Which research group and why; indicate preferred supervisor (host)?

VIII. Impact: What is the expected impact of your research, which target audience does your proposal speak to and how will your reach them.

IX Preliminary outline: describe the overall structure of the research and explain how it will address your question(s)/hypothesis.

X. Preliminary Annotated Bibliography: Distinguish primary and secondary literature and provide short summaries of each source in regard to its topic, disciplinary/methodological/theoretical framework used and the relevance to your research.

Document Length: This first draft research proposal to be submitted upon application, should be limited to +/- 2500 words (exclusive bibliography).
