1 Instructions

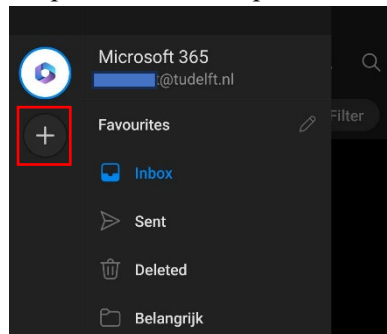

1.1 Setup a functional mailbox Android

Before proceeding with this manual, make sure you are already logged in with your personal TU Delft mailbox.

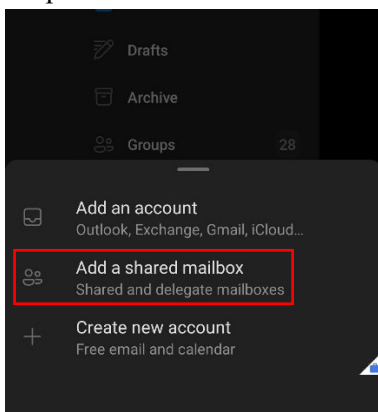

Step 1. Open the menu by clicking the icon in the top left.

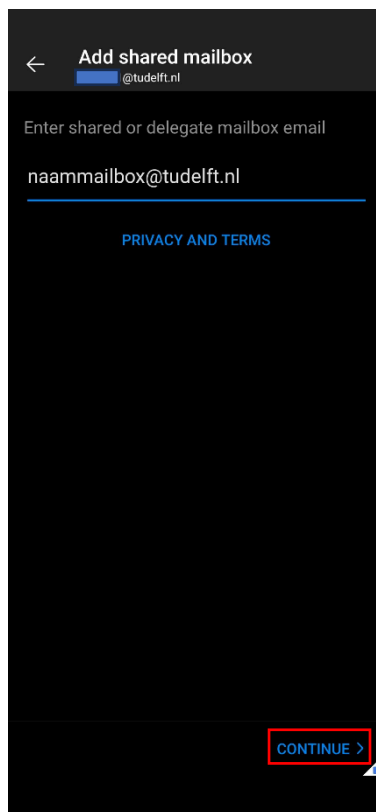

Step 2. Click on the plus icon.

Step 3. Click on “Add a shared mailbox”

Step 4. Enter the name of the mailbox and click on "Continue"

Step 5. The mailbox has now been added and can be found at the menu.
