Windows 7

Eduroam Change password

For use by: Version: Date: Owner: Students, Employees 1.1 16-06-2016 @Hok /SSC ICT

(this page was intentionally left blank)

Before you begin

The following instructions are supported by TU Delft and have been tested to be working. We are offering this manual to you as an extra service. In the event you have a different configuration or version of windows to the one described here and you have problems connecting, we advise you to contact your nearest Service Desk, Student IT Desk (SID) or Workstation services (WPS).

Adjust the wireless password on your Windows laptop.

Step 1. Go to the wireless icon at the bottom right and click on the icon, choose "Open Network and Sharing Center".

Internet access

Step 2. Right click "eduroam" and click "Properties".

Step 2. Click "Manage wireless networks".

Step 3. Click the second tab "security", then "Advanced settings".

ecurity type:	WPA2-Enterprise	~
cryption type:	AES	~
crosoft: Protecte	d EAP (PEAP) V	Settings
Aicrosoft: Protecte	d EAP (PEAP) v	Settings each
Microsoft: Protecte Remember my cr time I'm logged c	d EAP (PEAP) v redentials for this connection	Settings each
Microsoft: Protecte ✔ Remember my cr time I'm logged c	d EAP (PEAP) v edentials for this connection	Settings each

Perform immediately before user log-on Perform immediately after user log-on Maximum delay (seconds): 10 In Alow additional dialogues to be displayed during single sign on This network uses separate virtual LANs for machine and user authentication	Enable single sign on for this	network			
Perform immediately after user log-on Maximum delay (seconds): 10	Perform immediately before	ore user log-	on		
Maximum delay (seconds): III III III III III III III I	Perform immediately after	r user log-o	n		
Allow additional dialogues to be displayed during single sign on This network uses separate virtual LANs for machine and user authentication	Maximum delay (seconds):		10	*	
This network uses separate virtual LANs for machine and user authentication	Allow additional dialogues sign on	to be displa	ayed durin	ig single	
	This network uses separa and user authentication	ite virtual L/	ANs for ma	achine	

Step 5. Enter your NetID in the first field followed by **tudelft.nl**, enter your password in the second field and click OK. Close all windows, your password is adapted and eduroam will automatically connect again.

Saving your o	credentials allows your computer to connect to the network
when you're	not logged on (for example, to download updates).
