Adding your personal mailbox to Outlook on Android

Before you begin

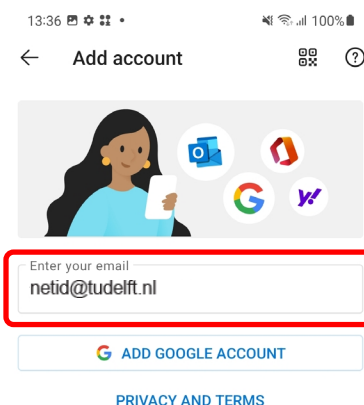

The following instructions are supported by TU Delft and have been tested to be working. We are offering this manual to you as an extra service. In the event you have a different configuration or version of Android than 9 or lower or a different type of phone than Fairphone, and you have problems connecting, we advise you to contact your nearest Service Desk, Student IT Desk (SID) or Workstation services (WPS).

Connecting your Outlook app on Android to your personal mailbox

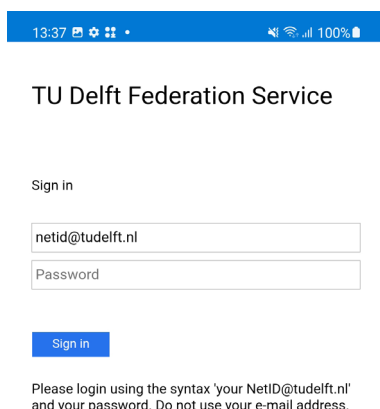

Step 1. Open **Outlook** app and tap **Add Account**.

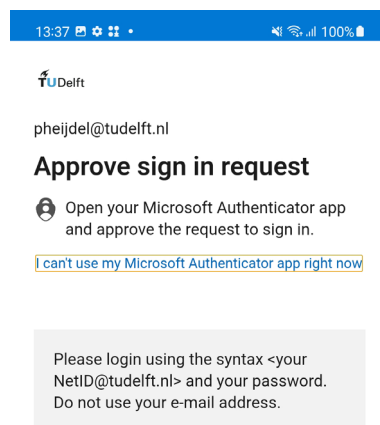

Step 2. Enter your TU Delft email address and click 'continue'.

Step 3. You will be redirected to the TU Delft Federation Service. Log in with your **netid@tudelft.nl** account and password and click 'Sign in'.

Step 4. Approve the sign in request with your Authenticator app.

Step 5. Your account will be added.
