What happens when your doorbell starts talking to your thermostat behind your back? When your fridge decides to add items to your weekly shopping list? When your favourite jumper, the kitchen table and the kettle seem to manifest signs of digital personality?

TU Delft's **Marco C. Rozendaal**, Central Saint Martins' **Betti Marenko** & Simon Fraser University's **William Odom** invite you to an event celebrating the publication of Bloomsbury's

Designing Smart Objects in Everyday Life

When Friday 22 October 2021 16:00-17:00

Location Historic Pavilion, De Zaale
Groene Loper 5, Eindhoven
(CoronaCheck-app needed to enter)
