

Launch of the Dutch National Doctoral College
in Offshore Renewable Energy and the
PhD@Sea Initiative – **Next Steps**

Simon Watson
Director of DUWIND

2nd March 2018

Overview

- Workshop 13th June 2018
- Terms of Reference
- Discuss logistics
- Working group to establish research priorities
- Draft plan of activities

Workshop

- Workshop 13th June 2018
- 09:00 to 16:00
- To be held at TU Delft
- Open to NL academics working in offshore renewable energy research

Terms of Reference

- Purpose of PhD@Sea and Doctoral College
- Governance
- Representation
- Modus Operandi
- Frequency of meetings
- Reporting
- Accountability

Logistics

- Resourcing
- Course sharing
- Group training
- Industrial involvement
- Secondment

Working Group(s)

- Review research objectives
- Strategy to obtain funding

Activities

- Focussed workshops
- Secondments
- Joint courses
- Course sharing
- Conference 2019

Planning

- Potential partners to confirm attendance asap
- Draft discussion documents to be circulated in May
- Initial feedback asked for a week before

Some Things to Think About

- What do academic partners want to get out of PhD@Sea to support their research?
- How could your researchers benefit?
- What courses could you offer?
- Focus on PhD candidates, but would broadening to postdocs and masters students be beneficial?
- How much should industry be involved?
- Can we make things cost neutral?

Q & A
??????
