

# Symposium Innovate your Space

Big Data from Space vs. Lean information on Earth

26 September 2023

**TNO** innovation  
for life

**SRON**  
Netherlands Institute for Space Research

Dear guest,

We are pleased to announce that the registration is now open for our upcoming DSI-TNO-SRON 'Innovate your Space' Symposium themed  
**Big Data from Space vs. Lean information on Earth**  
**September 26 - 2023**

Invited guests will represent the space community of the Netherlands, including research institutes, industry and government.

Our keynote speakers

**Marco Esposito from COSINE,**  
**Giuseppe Borghi from ESA,**  
**Floris van Kempen, TNO**

are prominent international representatives of multinationals, government and science institutes.

During the pitch rounds, young talent will be given the opportunity to pitch their ongoing or recently finished research to those attending the symposium. In the afternoon two workshops in the context of the symposium will take place.

This year's symposium will be held at

**Delft University of Technology**  
**Aula Congresscentrum**  
**Mekelweg 5**  
**Delft**

The program and registration can be found on [Innovate your space symposium - Register](#)

Registration is open until the 10th of September 2023.

Please stay up to date with the program on our website

[Big Data from Space vs. Lean Information on Earth](#) since minor changes might occur.

If you have questions, please send an email to [innovateyourspace@tudelft.nl](mailto:innovateyourspace@tudelft.nl)

We hope to see you at our symposium.

Best regards,

Eberhard Gill, TU Delft Space Institute  
Kees Buijsrogge, TNO  
Avri Selig, SRON
