

We Do Wonder & Play Together

Accenture Industry X - Industrial Design

We believe designers are responsible for creating the products, services, and experiences that shape our world.

At Accenture Industry X Industrial Design, we design physical products for the digital age. Previously known as VanBerlo, we bring over 40 years of industry experience in industrial and digital design, strategy and engineering.

Together we can create a better world for people, the planet and businesses.

Interested in what we do?

Find out more about our work and the Eindhoven Industrial Design Center on the [website](#).
