

Looking for a  
**UX/UI design  
internship?**

**Join us!**

Versuni Experience Design team is looking for enthusiastic and talented students who want to join our Amsterdam based design studio for a 6 months paid internship experience.

We are a cross functional Experience design team that works on a variety of products and brands including Philips, Saeco, Senseo, and Gaggia. Create innovative experiences with real user insights that improve peoples daily lives and turn houses into home. You will be working as an integral team member supporting our diverse team of designers in the following parts of our design process:

- Research – trend inspiration, best practices, and consumer testing
- UX design – ideation workshops and user journey mapping
- User interface design – wireframe, information architecture, prototype creation and transition animations

Meeting and beating these following skills would be a great step in the right direction:

- Excellent communication and collaboration skills
- Competent digital software knowledge (preferably Figma and Adobe suite)
- Pro-active team player
- Fluent in English
- Enthusiastic about learning directly from our consumers and translating it into meaningful digital and product experiences

Looking forward to hearing from you!  
Versuni Design Team
