Please check the Vital Message on the registration website by connecting with your profile. All information on when and where you are expected to register upon arrival are indicated in this message. All ATHENS Sessions abroad consists of two elements:

These EDA take place during the weekend preceding the course period, during the 5 weekdays of the course as well as during the weekend following the course.

Students participating in an ATHENS week commit themselves to following the entire Programme (EDA + ATHENS course) as described above. The participation in the EDA is mandatory.

**What is the difference between EDA and other social activities?**
