

Winter School on GENDER AND DIVERSITY IN SCIENCE, TECHNOLOGY AND SOCIETY

Learnings In the Winter School, the extent to which gender and diversity are to be understood as context-related results of historical, political, social and cultural processes and can be studied scientifically is elaborated. In the seminar, students acquire the competence to understand and critically and reflexively evaluate the structuring of social inequality and intersectional positioning through science and technology.

For who? The course is aimed at students (Bachelor, Master or doctoral degrees) of natural, planning and technical sciences, mathematics and computer science as well as students who want to acquire competences in Science and Technology Studies (STS) with a focus on gender and diversity.

How much? Winter School is FREE OF CHARGE.

The Blended Intensive Programme (Erasmus+) can support students' participation with travel, accommodation and subsistence costs. Participants might be eligible to receive an Erasmus+ for their participation. For more information, please get in contact with your local International Office.

Credits This winter school leads to the acquisition of 3, 4 or 6 ECTS upon successful participation in stage 1, stage 2 or stage 3 (depending on the level of participation).

When? Between Feb. 13-17, 2023: 2 dates of 1,5 hours: Online Onboarding of participants

March 6–10, 2023 (Stage 1: 3 ECTS): Winter School in Berlin, Germany

March 23–24, 2023 (Stage 2: +1 ECTS): Online presentations of study projects

April 30, 2023 (Stage 3: +2 ECTS): Due date for term paper

In Total: Up to 6 ECTS are obtainable for the completion of all 3 stages

The Winter School activity will be held in hybrid mode. On site in TU Berlin, Germany and online. Instruction language is English.
