		Msc1		Msc 2	
option I Integrated MSc 1 Studio	Architecture Design Studio			Elective	Architecture Design Studio
	Building Engineering Studios			Elective	
	Delft Lectures on Architectural Design & Research Methods	Delft Lectures on architectural History & Theory	Thesis History or Theory		
option II Separated MSc 1 Studio	Architecture Design Studio	Building Engineering Studios		Elective	Architecture Design Studio
				Elective	
	Delft Lectures on Architectural Design & Research Methods	Delft Lectures on architectural History & Theory		Thesis History or Theory	
		Msc3		Msc 4	
Lectures on Research Methods & Architectural History	Graduation Research		Graduation Design Studio		

Curriculum Master Track Architecture 2019/2020 - update 28-02-2019

The Architecture track of the MSc programme Architecture, Urbanism and Building Sciences will be renewed in September 2019. This means that new master students will start within the renewed programme. If you are starting your master in the Architecture track before 1 September, please keep in mind you will be following the existing programme.

The new programme offers a streamlined schedule with a quarterly structure, a reduction of the number of courses, and a clearer curriculum. The MSc1 programme will only be offered in September. The MSc2 programme will only be offered in February of each academic year. The knowledge gained during MSc1 is necessary to continue MSc2. Students are advised to follow the programme in the intended order and to start in September.

The Architecture Design Studio and Building Engineering Studios (AR1A080) are integrated and taught during the 1st and 2nd quarter. Both studios form one coherent whole and architecture and building engineering teachers will collaborate closely. Only students who choose the MSc 1 studio of Complex Projects or The Why Factory will follow the Architecture Design Studio in the 1st quarter and Building Engineering Studios in the 2nd quarter. These two studios are not integrated with Building Engineering Studios.

Delft Lectures on Architectural Design and Research Methods (AR1A061) is a preparation course that needs to be followed before students start their graduation year.

Delft Lectures on Architectural History and Theory (AR1A066) is the preparation course for the History or Theory Thesis.

Students who go abroad during the 1st semester can follow both lecture courses (Delft Lectures on Architectural Design and Research Methods (AR1A061) and Delft Lectures on Architectural History and Theory (AR1A066) – both 5 EC) online. An exam possibility will be arranged during the regular exam period.

As a transitional measure the old MSc2 programme will be offered in September 2019 for the last time. The offered courses are only open for students who started their MSc before the 1st of September 2019.

Transitional Measures Architecture 2019-2020 per category:

From 2019-2020 on the renewed MSc1 programme will only be offered in September and the renewed MSc2 programme will only be offered in February. As a transitional measure the old MSc2 programme will be offered in September 2019.

Therefore it is advised that students from the Architecture track who started their master in February or earlier with an MSc1 and still have to follow an MSc2, will follow an old MSc2 in September 2019.

All students from the Architecture track who started their master in February with an MSc2 should follow a renewed MSc1 in September 2019.

Please mind that all retake opportunities will be scheduled in the academic year 2019-2020.

Students should pass at least 60 EC including all compulsory courses in order to pass the MSc1 and MSc2.

Followed MSc1 before the renewal:

AR1A060 or AR1A065; If a student didn't pass one of the two Lecture courses he or she will get two retake opportunities. These retakes will be scheduled during the regular exam periods. For more information the student should contact the course coordinator.

AR1A075; If a student didn't pass the Delft Seminars on Building Technology course, he or she will have to follow the new BT course (AR1A080 – Building Engineering Studios – 10 EC). Students who didn't pass the Delft Seminars on Building Technology course and still had to take the Sustainability course (AR2A015 – 3 EC) will be exempted from the Sustainability course as this is integrated in the new Building Engineering Studios course, the remaining 1 EC can be used as elective. Students who already passed the Sustainability course (AR2A015- 3 EC) can use the 4 extra EC as electives.

If a student didn't pass the design studio (12 EC), he or she will have to follow the new 2019-2020 design studio (10EC). In addition to that he or she has to follow 2 extra EC of elective courses.

If a student didn't pass the additional courses belonging to the specific design studio, he or she will get two retake opportunities. For more information the student should contact the course coordinator.

Followed MSc2 before the renewal:

AR2A015; If a student didn't pass the Delft Lectures on Architectural Sustainability course he or she will get two retake opportunities. For more information the student should contact the course coordinator.

AR1A075 and AR2A015; If a student didn't pass both the Delft Seminars on Building Technology course and the Delft Lectures on Architectural Sustainability course he or she should follow the new BT course – Building Engineering Studios (AR1A080 – 10 EC).

AR2A010 or AR2AT030; If a student didn't pass the History or Theory Thesis, he or she will get two retake opportunities. For more information the student should contact the course coordinator. If a student doesn't pass the retake opportunities he or she should follow the new 2019-2020 course (AR2A011 or AR2AT031 – both 5 EC). In addition to that he or she has to follow 1 extra EC of elective courses.

Electives MSc2:

If a student didn't pass the design studio (12EC), he or she will have to follow the new 2019-2020 design studio (10EC). In addition to that he or she has to follow 2 extra EC of elective courses.

If a student didn't pass an elective, not being a design studio, he or she will get two retake opportunities. For more information the student should contact the course coordinator.

Exchange in the new programme:

If a student goes on exchange during the 1st semester of the academic year he or she should gain 30 EC during the stay abroad. Upon return he or she should follow the Building Engineering Studios course (AR1A080 – 10 EC). The 10 EC from this course can be used as elective points. Please mind that this Building Engineering Studios course during the 2nd semester Q3 is only open to students who went abroad during the 1st semester.

Students who go abroad during the 1st semester can follow both lecture courses (AR1A061 and AR1A066 – both 5 EC) online. An exam possibility will be arranged during the regular exam period.

If a student goes abroad during the 2nd semester he or she can follow the regular programme.

Transitional Measures 2019-2020

Architecture - General				
Programme 2018-2019	Credits	Programme 2019-2020	Credits	Remarks
AR1A060	3	-		There will be two retake opportunities for students who did not pass the course. These retakes will be scheduled during the regular exam periods. For more information contact the course coordinator.
AR1A065	3	-		
AR1A075	6	-		Students who did not pass the 2018-2019 course should follow the new Building Engineering Studios (AR1A080)
AR2A010	6	AR2A011	5	New course code. Students who didn't pass the 2018-2019 course will get two retake opportunities. For more information contact the course coordinator. If students don't pass the retake opportunities they should do the new 2019-2020 course. Students should also take 1 credit of electives extra.
AR2AT030	6	AR2AT031	5	
AR2A015	3	-		There will be two retake opportunities for students who did not pass the course. For more information contact the course coordinator.
