

TU Delft University - Faculty of Architecture and the Built Environment

Master Architecture, Urbanism and Building Sciences (AUBS)

Master Geomatics (GM)

Transitional Measures 2024-2025

Below listed transitional measures, to be implemented as of 1 September 2024, are a result of changes made in the faculty's master's programmes and the courses belonging to these programmes.

Important notes:

- Current Master AUBS and GM students are allowed to complete their degree programme according to the same requirements that applied during the first academic year of their enrolment.
(see TER, Art. 1.38 in the [Student Charter AUBS 2023-2024](#) and [Student Charter Geomatics 2023-2024](#)).
- Courses offered in academic year 2023-2024 not listed below will be taught again in academic year 2024-2025
(see for a full course overview: [Master AUBS](#) and [Master Geomatics](#) in the Study Guide 2024-2025).
- The Study Guide 2024-2025 of the [Master AUBS](#) is structured differently compared to the previous academic year.
Instead of a general list of all master's electives offered by the faculty (the so-called 'AR Electives'), there are now Q3 elective lists and Q4 elective menus specified for each Master AUBS track. The Study Guide structure of the Master Geomatics has not changed.

Reading instructions:

Reading left to right, you will first find the course that was offered in the academic year of 2023-2024 and before, followed by the replacement course, including the number of credits (EC) and the quarter (Q) the course was taught.

If there is no replacement course for the academic year 2024-2025, it is indicated by a '-'.

Under 'Remarks' all information about a specific transitional measure is summed up including possible repair opportunities.

MSc Architecture, Urbanism and Building Sciences
Track: Architecture (A)

Programme 2023-2024 and older	EC	Q	Programme 2024-2025	EC	Q	Remarks
AR0051 'Online Digital Portfolio'	6	1,2,3,4	AR0915 'Online Digital Portfolio'	5	3	If students, who started their studies in academic year 2023-2024 or before, did not complete the AR0051 'Online Digital Portfolio' elective before 1 September 2024, they can instead take the AR0915 'Online Digital Portfolio' elective in academic year 2024-2025 or choose another 5 EC elective offered by the A track or a university master's programme (see Architecture electives in the Study Guide 2024-2025). Students who completed AR0051 before 1 September 2024, can no longer take AR0915 as MSc2 elective.
AR0771 'Beyond 3D Computer Visualisation'	6	2,4	AR0916 'Beyond 3D Computer Visualisation'	5	3	If students, who started their studies in academic year 2023-2024 or before, did not complete the AR0771 'Beyond 3D Computer Visualisation' elective before 1 September 2024, they can instead take the AR0916 'Beyond 3D Computer Visualisation' elective in academic year 2024-2025 or choose another 5 EC elective offered by the A track or a university master's programme (see Architecture electives in the Study Guide 2024-2025). Students who completed AR0771 before 1 September 2024, can no longer take AR0916 as MSc2 elective.
AR2AP031 'Public Building Seminar Aesthetics of Sustainable Design'	5	3	AR0918 'Adaptive Architecture for Public Buildings: Theories and Practices'	5	3	If students, who started their studies in academic year 2023-2024 or before, did not complete the AR2AP031 'Public Building Seminar Aesthetics of Sustainable Design' elective before 1 September 2024, they can instead take the AR0918 'Adaptive Architecture for Public Buildings: Theories and Practices' elective in academic year 2024-2025 or choose another 5 EC elective offered by the A track or a university master's programme (see Architecture electives in the Study Guide 2024-2025). Students who completed AR2AP031 before 1 September 2024, can no longer take AR0918 as MSc2 elective.
AR2AP041 'Public Building Seminar Composition and Perception'	5	3	AR0919 'Exteriorless: the Design of the Ordinary'	5	3	If students, who started their studies in academic year 2023-2024 or before, did not complete AR0771 'Beyond 3D Computer Visualisation' before 1 September 2024, they can instead take AR0916 'Beyond 3D Computer Visualisation' in academic year 2024-2025 or choose another 5 EC elective offered by the A track or another university master's programme (see Architecture electives in the Study Guide 2024-2025).

					Students who completed AR2AP041 before 1 September 2024, can no longer take AR0919 as MSc2 elective.
Other measures:					
<ul style="list-style-type: none"> Track A students considering a double track with BT starting in academic year 2024-2025 cannot include AR0682 'Heritage & Architecture Design Studio: Research and Architectural Design' obtained in academic year 2023-2024 or earlier in their BT programme. 					

MSc Architecture, Urbanism and Building Sciences Track: Management in the Built Environment (MBE)						
Programme 2023-2024 and older	EC	Q	Programme 2024-2025	EC	Q	Remarks
AR2MBE015 'Redesign of Complex Projects'	10	3	ARFW1501 'Entrepreneurship in the Built Environment' or ARFW1502 'Peri-Urban Transformations: Analysis, Development, Design'	15	4	Students, who participated in AR2MBE015 'Redesign of Complex Projects' in academic year 2023-2024 and who completed the group assignments during the course in Q3 but did not pass or repair the individual assignments (two in total) in Q3 or in Q4, are eligible for taking a final opportunity to repair each individual assignment in Q1 of academic year 2024-2025. Students, who did not pass AR2MBE015 in Q1 of academic year 2024-2025, can take the new replacement course ARFW1501 'Entrepreneurship in the Built Environment' or ARFW1502 'Peri-Urban Transformations: Analysis, Development, Design' offered in Q4 of academic year 2024-2025. Students who started the MBE programme in academic year 2023-2024 or before, can count the extra 5 EC of ARFW1501 or ARFW1502 towards the completion of their MSc3 elective.
AR2MBE021 'Building Information Management'	5	4	-	-	-	Students, who did not pass the AR2MBE021 'Building Information Management' (5 EC) course after the final repair opportunity to be submitted by 15 July 2024 at the latest, will be offered another two rounds of repair in Q1 and Q2 of academic year 2024-2025. For further details about the extra round of repairs in 2024-2025, students need to contact instructor T. Wang. If students did not pass the AR2MBE021 'Building Information Management' (5 EC) course after taking the two extra rounds of repairs in Q1 and Q2 of academic year 2024-2025, they can take the new replacement course AR[XXX] 'Information Management

						in the Built Environment' to be offered in Q2 of academic year 2025-2026.
AR2MBE025 'Urban and Infrastructure (Re)development Game'	10	4	AR2MBE030 'Urban Development Management'	10	3	Students, who participated in AR2MBE025 'Urban and Infrastructure (Re)development Game' but did not pass or repair the course in academic year 2023-2024, are eligible for taking two extra repair opportunities either in Q1 or in Q2 of academic year 2024-2025. Students who did not pass AR2MBE025 in Q1 or Q2 of academic year 2024-2025, can take the new replacement course AR2MBE030 'Urban Development Management' offered in Q3 of academic year 2024-2025.

MSc Architecture, Urbanism and Building Sciences AR Electives

The following electives (course or design studio) are no longer offered from academic year 2024-2025:

Programme 2023-2024 and older	EC	Q	Programme 2024-2025	EC	Q	Remarks
AR0049 'Urban Geography'	5	4	-	-	-	Students who did not pass the AR0049 'Urban Geography' elective before 1 September 2024, can take another 5 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0131 'Entrepreneurship in Architecture and the Built Environment'	5	3	-	-	-	Students who did not pass the AR0131 'Entrepreneurship in Architecture and the Built Environment' elective before 1 September 2024, can take another 5 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0171 'Geo-design for a Circular Economy in Urban Region'	5	4	-	-	-	Students who did not pass the AR0171 'Geo-design for a Circular Economy in Urban Region' elective before 1 September 2024, can take another 5 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0172 'Globalisation - Research on the Urban Impact'	5	4	-	-	-	Students who did not pass the AR0172 'Globalisation - Research on the Urban Impact' elective before 1 September 2024, can take another 5 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.

AR0187 'Transition Landscapes'	5	4	-	-	-	Students who did not pass the AR0187 'Transition Landscapes' elective before 1 September 2024, can take another 5 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0173 'Globalisation Free Choice'	10	4	-	-	-	Students who did not pass the AR0173 'Globalisation Free Choice' elective before 1 September 2024, can take another 10 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0227 'Infrastructure and Environment Design'	10	4	-	-	-	Students who did not pass the AR0227 'Infrastructure and Environment Design' elective before 1 September 2024, can take another 10 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0089 'Design in Process, Process in Design'	15	4	-	-	-	Students who did not pass the AR0089 'Design in Process, Process in Design' elective before 1 September 2024, can take another 15 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0144 'BK-Launch studio'	15	4	-	-	-	Students who did not pass the AR0226 'MSc2 Studio Elective Urban and Infrastructure (Re)development game' elective before 1 September 2024, can take another 15 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
AR0226 'MSc2 Studio Elective Urban and Infrastructure (Re)development game'	15	4	-	-	-	Students who did not pass the AR0226 'MSc2 Studio Elective Urban and Infrastructure (Re)development game' elective before 1 September 2024, can take another 15 EC elective offered by the MSc AUBS tracks (see links below), or other university master's programme in academic year 2024-2025.
See the following Study Guide links for electives offered by the MSc AUBS tracks in academic year 2024-2025:						
Architecture	Architecture electives (5 EC)					
	(Intra)disciplinary electives (15 EC)					
Building Technology	Building Technology electives (5 EC)					
	(Intra)disciplinary electives (15 EC)					

Management in the Built Environment	(Intra)disciplinary electives (15 EC)
	MBE electives (5 EC)
Landscape Architecture	(Intra)disciplinary electives (5, 10 or 15 EC)
Urbanism	(Intra)disciplinary electives (5, 10 or 15 EC)

MSc Geomatics (GM)						
Programme 2023-2024 and older	EC	Q	Programme 2024-2025	EC	Q	Remarks
GEO5018 'Ethics for the Data-driven City'	5	4	ARFW0503 'Urbidata: Responsible Design for Fair Data Cities'	5	4	Students who did not complete GEO5018 'Ethics for the Data-driven City' before 1 September 2024, can instead take ARFW0503 'Urbidata: Responsible Design for Fair Data Cities' or another 5 EC elective offered by GM or a university master's programme in academic year 2024-2025 (see Master Geomatics in the Study Guide 2024-2025). Students who completed GEO5018 before 1 September 2024, can no longer take ARFW0503 as elective.
