Transitional measures 2023-2024

Below listed transitional measures, implemented as of 1 September 2023, are a result of changes made in the faculty's study programmes and the courses belonging to these programmes.

Please note that unchanged 2022-2023 courses are not listed below but will be taught again in academic year 2023-2024. See also the [Study Guide 2023-2024](#).

Reading instructions:

Reading left to right, you will first find the course that was provided in the academic year of 2022-2023 and older, followed by the replacement course, including the number of credits.

If there is no replacement course for the academic year 2023-2024, it is indicated by a '-'.

Under 'Remarks' all information about a specific transitional measure is summed up (e.g., possible retake opportunities, on which terms obtained results are still considered valid, whom to contact, etcetera).

MSc Architecture, Urbanism and Building Sciences Track: Architecture				
Programme 2022-2023 and older	Credits	Programme 2023-2024	Credits	Remarks
AR1MET011 'Ways of doing'	10	AR1MET015 'Situating Architecture'	10	Students who have not completed AR1MET011 'Ways of doing' before 1 September 2023, can instead take AR1MET015 'Situating Architecture'.
