#### Conditions for admission to start the Master Thesis Preparation

You are allowed to start the Master Thesis Preparation (AESM6000, 5 EC), if you have successfully completed all courses of the first year of your Master and 10 EC from your second year.

Admission may be granted while still awaiting exam results to fulfil above requirements, but only by request and based on a clarification by the student accompanying the submission of this form. See the Brightspace page of AESM6000 for more information.
