Graduation Agreement

For all TU Delft students that graduate at a company a graduation agreement is required in which all conditions for the graduation are stipulated and agreed upon by the company, the student and TU Delft. The procedure for this graduation agreement is available on the Faculty CEG student portal.

- ☐ By ticking this box, I declare a) that I am graduating at a company and that the graduation agreement has been signed by all parties involved, or b) that I am not graduating at a company and a graduation agreement is therefore not required. Note that without ticking this box, approval of the kick-off proposal may not be given.

Conditions for the composition of the Graduation Assessment Committee

The chairperson of the assessment committee must be a full professor, associate professor or assistant associate professor within the AES programme. The second examiner in the assessment committee must represent a different section of this faculty. In case of an assessment committee of three members or more, the second examiner may also represent a different faculty of the Delft University of Technology, provided at least two members represent the faculty of Civil Engineering and Geosciences. For more information please see Article 23 of RGBoE 2023-2024.

Composition Graduation Assessment Committee

Role	Titles and names members	Section/Faculty/Company
Graduation Chair*		
Secondary Supervisor		
Additional Assessor		
Company Supervisor 1		
Company Supervisor 2		

*) Compulsory to be listed in this form. Note that any additional supervisors may be added to the committee later using a form AES-2a, but must be registered before the green-light meeting.

Signature Graduation Chair For approval kick-off proposal	Signature for Committee Approval On behalf of the Board of Examiners
