

IDEM401

# BlueDot: Design contest

Q2

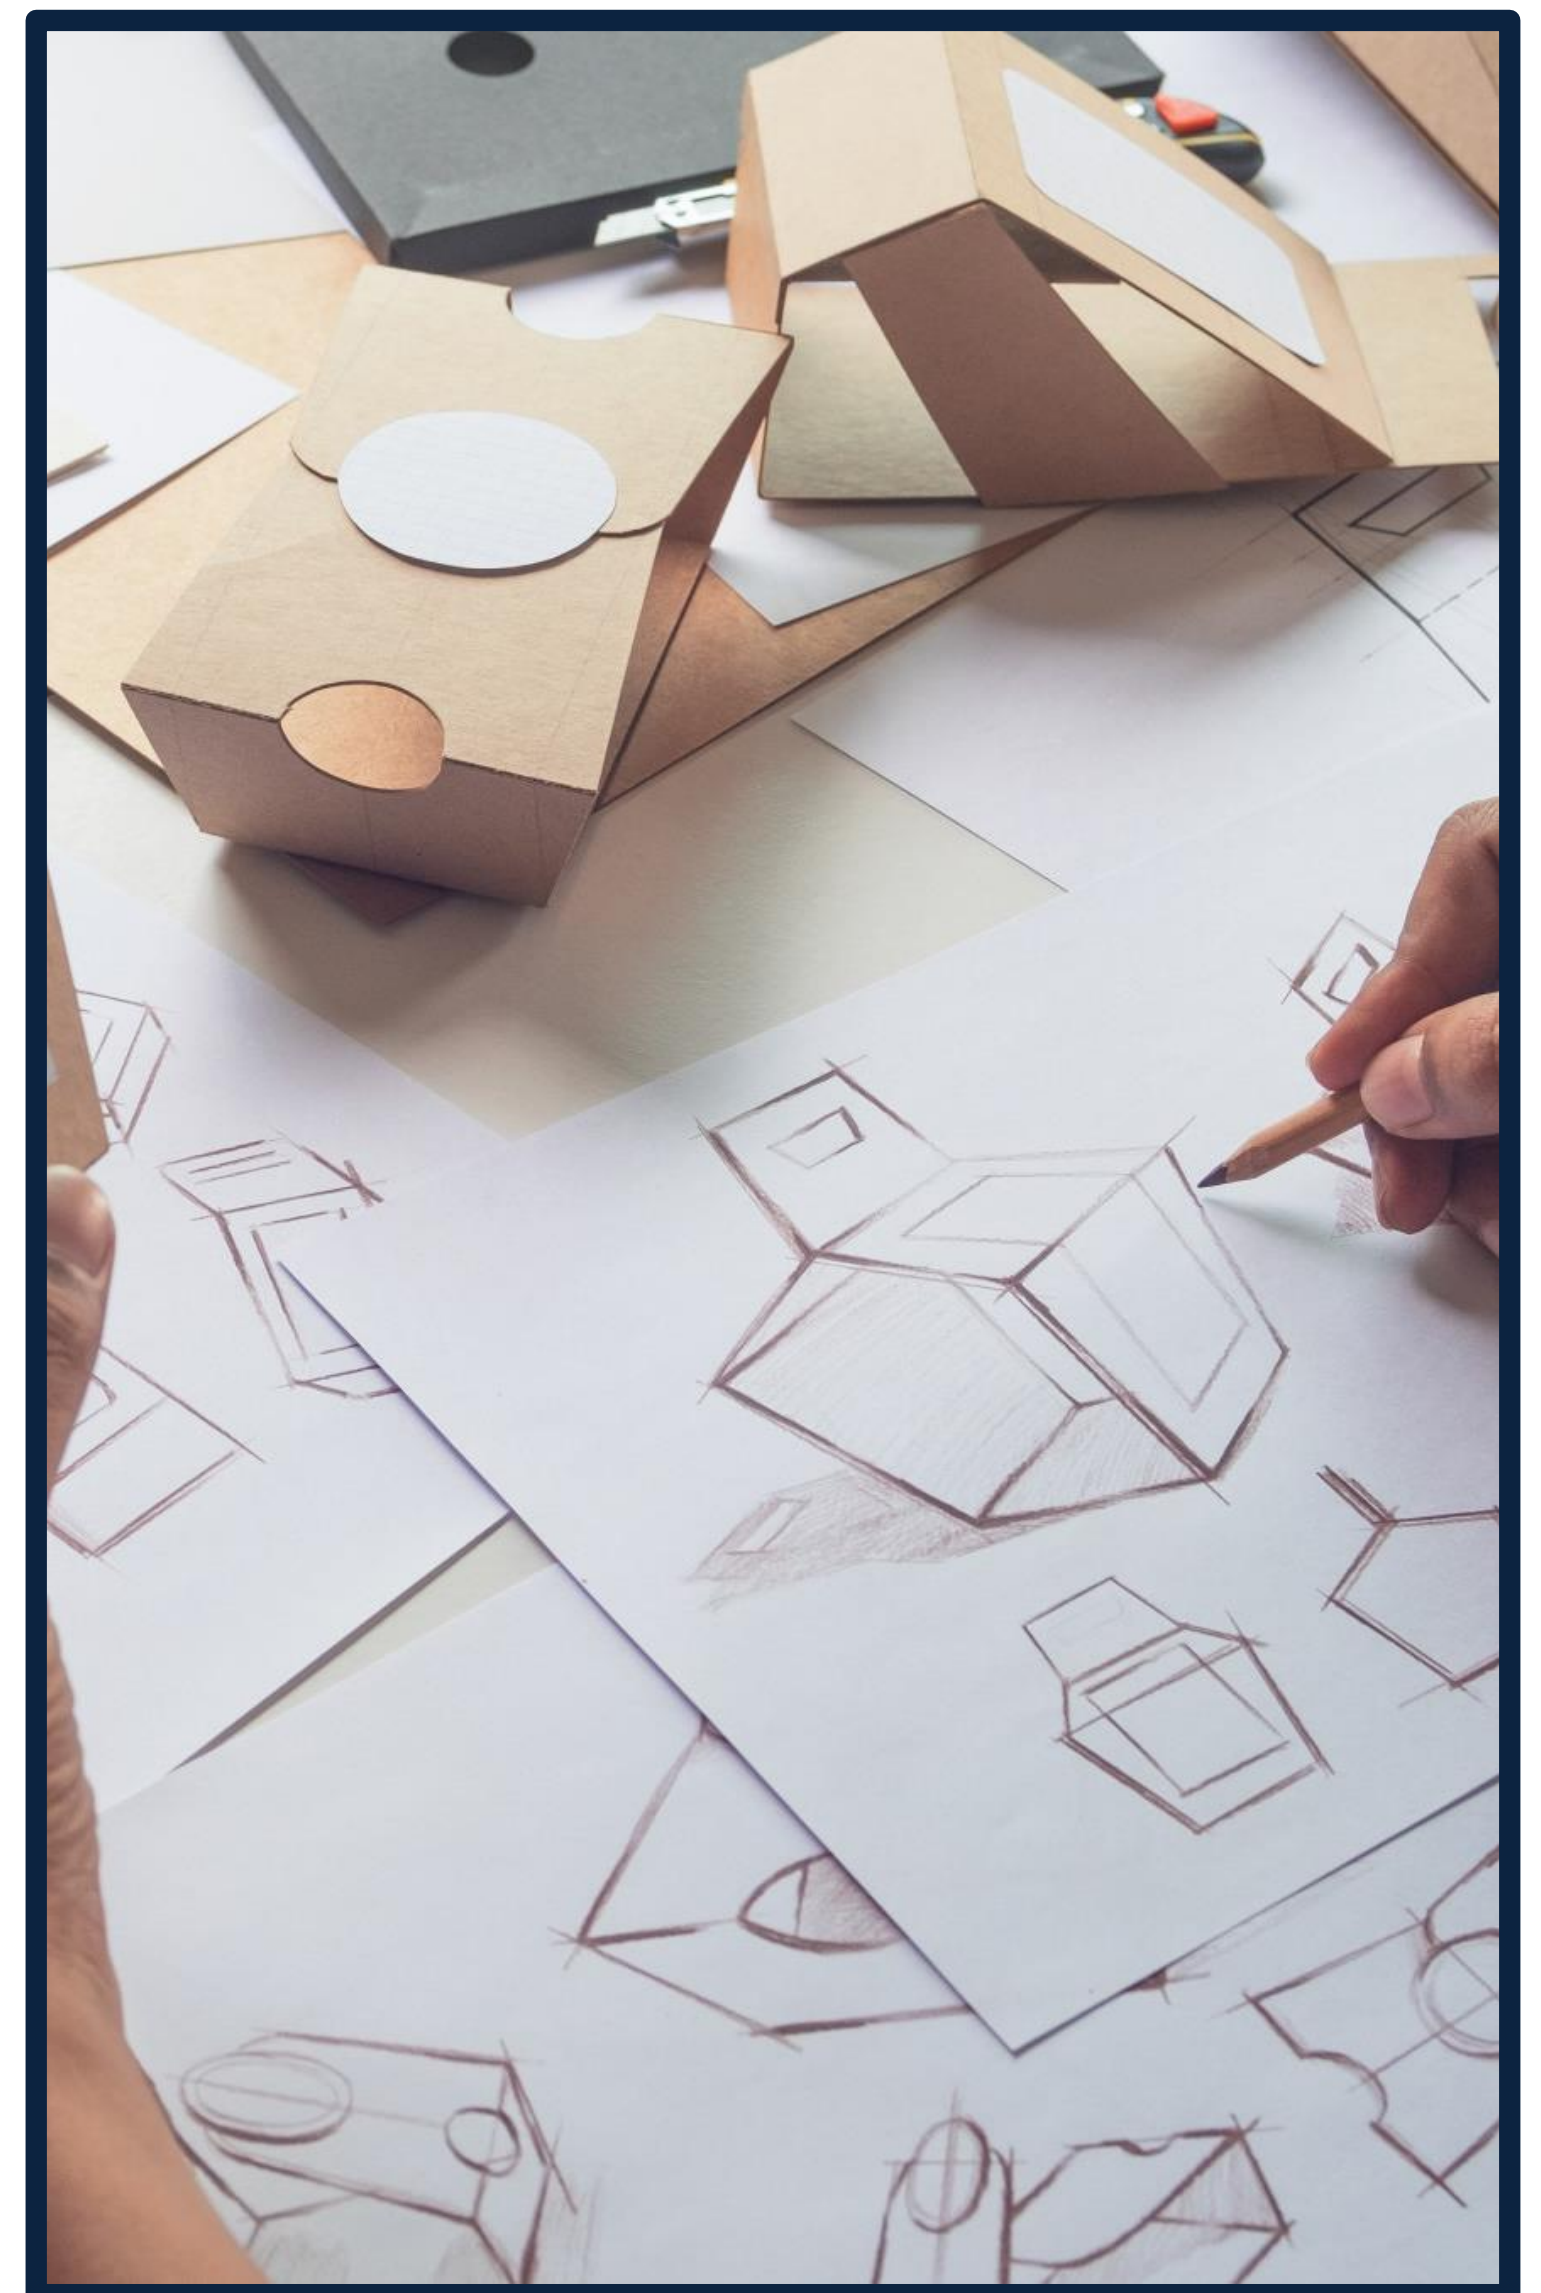

E

Design a lowtech product on a given theme from concept to a detailed prototype to fit in the BlueDot collection.

Weekly meetings with a mentor according to the timetable.

The project is assessed by the mentor. For this he/she will receive a concise report with a personal reflection on the course objectives, necessary information regarding the design and photos of the model. (Models must be presented to the supervisor before submitting them to the contest.)

**Assessment: Assignment**

**Joop Steenkamer**
