

MSc permission to defend Form (AE-3a) Master Aerospace Engineering

This form must be submitted at least one week before the Green Light review to the supervisor and at least 20 working days prior to the date of the final presentation of the MSc Thesis together with the MSc diploma Application Form (AE-3b) to SPA-LR@tudelft.nl.

Only fully completed digital forms can be taken into account. Send this form to SPA-LR@tudelft.nl

Student name:

Student number:

MSc track:

Title Thesis:

With this document we declare that the Master Thesis project and the Master Thesis report of the above mentioned student have reached such a state of completion that he/she gets the permission to defend the thesis work. This means, amongst others, that the draft Thesis is at such a level of content and completion that a successful defence may be expected.

To avoid plagiarism in our Faculties publications, all students are required to upload the draft Master Thesis (green light version) in the Turnitin¹ assignment page in Brightspace organization Master Thesis AE² and provide the daily supervisor³ with a pdf print out of the Turnitin originality report of the draft Thesis to the green light review.

If all other requirements for completion of the MSc programme are fulfilled, then the student is allowed to present his/her final thesis presentation, defend it and graduate. The Graduation date is set 20 working days from now (or later).

This document needs to be sent to the student administration SPA-LR@tudelft.nl, together with the MSc diploma Application Form (AE-3b) no later than 20 working days prior to the Graduation date.

The student has to comply with all requirements at least 5 days before the graduation date. The student also provides the daily supervisor with a print out of the Turnitin originality report of the **final** Thesis. If there are still deficiencies 5 days prior to the graduation date, the defence will not take place and a new date is set for the Defence and Graduation.

GO decision date

Name daily Supervisor³

Signature daily Supervisor

¹ Turnitin itself does provide extensive tutorials (http://turnitin.com/en_us/training/instructor-training) on the plagiarism check (what is checked and how is it checked, how should the tool be used). This small document provides you with some additional relevant information that may support you in the task of finding the results of the digital plagiarism scan.

² All scientific staff members are made instructor and are able to log on to Brightspace Organization 'Master Thesis AE'. If you have any questions or if you are not registered yet, ask for registration as an instructor and send an email to plagiarismcheck-AE@tudelft.nl.

³ If the daily supervisor is a PhD student, a scientific staff member will be responsible for Go/No Go decisions. A scientific staff member of the Faculty of Aerospace Engineering is HL, UHD, UD, lecturer or researcher.
