

Factsheet: Lectures at the Institute of Logistics and Aviation (IFL), TU Dresden

These lectures are not in our responsibility! Please direct requests to the responsible chair.

CHAIR OF AIR TRANSPORT TECHNOLOGY AND LOGISTICS

| Lecture | | semester | Winter | Summer | Module | | | | | | | | | | Language of instruction | Course materials | CP ¹⁾ |
|---------------------------------------------------------|--------------------------------------------------------------------------------------|----------|--------|--------|--------|---|--|---|---|---|--|--|---|---|-------------------------|------------------|------------------|
| Luftverkehrsanlagen, -betrieb und Flugsicherung Teil I | Air Transport Facilities, Operations and Air Traffic Control Part I | | x | | | | | x | | | | | x | | ger | ger | 2 |
| Aerodynamik und Flugeigenschaften | Aerodynamics and Flight Characteristics | 1st | x | | | | | x | | | | | | | ger | ger | 6 |
| Flugleistungen | Flight Performance | 1st | x | | | | | x | | | | | | | engl | engl | 3 |
| Cockpittechnologien | Cockpit technologies and Procedures | 1st | x | | | x | | | | | | | | | ger | engl | 3 |
| Communication - Surveillance | Communication - Surveillance | 3rd | x | | | | | | x | | | | | | engl | engl | 3 |
| Navigation | Navigation | 3rd | x | | | | | x | | | | | | | ger | engl | 3 |
| Verfahrensplanning und Verkehrsflusssteuerung | Procedure Design and Network Management | 3rd | x | | | | | | x | | | | | | ger | ger | 2 |
| Luftverkehrsanlagen, -betrieb und Flugsicherung Teil II | Air Transport Facilities, Operations and Air traffic Control Part II | | | | x | | | | | | | | | x | ger | ger | 2 |
| Betriebsverhalten von Flugzeugtriebwerken | Fundamentals of Aircraft Engines | 2nd | | | x | | | | | | | | | | engl | engl | 3 |
| Luftverkehrsrecht und Luftverkehrspolitik | Air Transport Law and Policy | 2nd | | | x | | | | x | | | | | | ger | ger | 2 |
| Flugplatzbetrieb | Airport Operations | 2nd | | | x | | | | x | | | | | | ger | ger | 2 |
| Flugsicherung | Air Traffic Control | 2nd | | | x | | | | x | | | | | | ger | engl | 3 |
| Airline Management | Airline Management | 2nd | | | x | | | | | x | | | | | engl | engl | |
| Minor Project ²⁾ | Research Seminar | | | | x | | | | | | | | | | both possible | both possible | 5 |
| Flugmeteorologie und Flugplanung | Meteorology in Aeronautics, Flight Planning | 2nd | | | x | | | x | | | | | | | ger | ger | 3 |
| Safety | Safety | 2nd | | | x | | | | x | | | | | | ger | engl | |
| Security | Security | 2nd | | | x | | | | | x | | | | | ger | ger | |
| Terminalprozesse | Terminal Processes | 2nd | | | x | | | | | x | | | | | ger | ger | |
| Logistik | Logistics | 1st | x | | | x | | | | | | | | | ger | ger | 6 |
| Verkehrslogistik | | 2nd | x | | | | | | | | | | | | | | 3 |
| Luftfahrzeugauslegung | Aircraft Conceptual Design | 1st | x | | | x | | | | | | | | | ger | ger | 2 |
| Luftfahrzeuginstandhaltung | Aircraft Maintenance | 1st | x | | | x | | | | | | | | | ger | ger | 2 |
| Umschlag- und Lagersysteme | Distribution and Warehouse Systems | 3rd | x | | | | | | | | | | | | ger | ger | 5 |
| Hubschrauber Technologien (Dynamik) | Dynamics and flight mechanics of helicopter technologies | 3rd | x | | | | | | | | | | | | ger | ger | |
| Grundlagen der Hubschrauber Technologien (Basics) | Fundamentals of helicopter technologies | 2nd | | | x | | | | | | | | | | ger | ger | 2 |
| Luftfahrtantriebe | Aircraft Engines | 2nd | | | x | | | | | | | | | | ger | ger | 5 |

Credits for Module

| | | | | | | | | | | | |
|-------------------------------------------------------------------------------------------------------|----|---|---|---|---|---|---|---|---|---|---|
| WW-VI 692: Logistik | 12 | 7 | 6 | 9 | 7 | 8 | 5 | 5 | 5 | 7 | 5 |
| WW-VI 643: Luftfahrttechnik (aircraft design) | | | | | | | | | | | |
| WW-VI 642: Flugplanung und Flugbetrieb (flight planning and aircraft operations) | | | | | | | | | | | |
| WW-VI 641: Luftfahreigenschaften (flight performance and aerodynamics) | | | | | | | | | | | |
| WW-VI 642: Betrieblich-logistische Strukturen des Luftverkehrs (air traffic and air field operations) | | | | | | | | | | | |
| WW-VI 645: CNS und taktisches ATM (CNS and tactical ATM) | | | | | | | | | | | |
| WW-VI 690: Safety and Airline Management | | | | | | | | | | | |
| WW-VI 691: Terminal Operations | | | | | | | | | | | |
| Minor Project | | | | | | | | | | | |
| WW-VI 110: Logistik und Luftverkehr | | | | | | | | | | | |
| WW-VI 11099: Hubschrauber-Technologie | | | | | | | | | | | |

Minor project

- Title (EXAMPLE): RPAS OPERATIONAL CONCEPT
- Project topic:

The aim of the project is to identify and evaluate the potential for development of Remotely Piloted Aircraft Systems (RPAS) in the area of commercial air transportation for the coming years through comprehensive discussions and considerations of different interest groups. The minor project mainly focuses on the operational conditions under which a safe and economic operation of RPAS can be guaranteed. This includes, among others, the development of requirements for the technical equipment of unmanned aerial vehicles, for operational procedures as well as for the operational infrastructure that is able to support these operations effectively.

- Remark: The project can be easily adapted to the number of Minor students (1-20 participants); The project is only offered with aviation background

¹⁾ Credits for courses, if not absolved as a module. Some courses cannot be taken individually, these remain blank.

²⁾ The number of credit points and the character of the IFL Minor project is derived from the „Research Seminar“ (8th semester), which is mandatory for Transportation Engineering students at the Faculty of Transportation and Traffic Sciences. The overview is not legally binding. Errors are reserved.
