Paragraph 1 General

Article 1. Division of the academic year

The academic year of the programme is divided in two semesters. Each semester consist of 2 periods (quarters). Each period consist of two octals.

Article 2. Admission to the programme

The requirements for admission to the BSc programme Nanobiology are described in Section 1, Article 5 of the Course and Examination Regulation Nanobiology (TER 2016-2017)

Article 3. Final attainments

Final attainments of the BSc programme are described in Section 1, Article 4 of the Course and Examination Regulation Nanobiology (TER 2016-2017)

Article 4. Minor

The BSc programme Nanobiology is a three year BSc programme of 180credit. The first year is 60credit, the second and third year consist of 120credit.

The programme has a major/minor structure. The major is the main component of the BSc (first year + 90 credit in second and third). The minor phase is 30credit, the Nanobiology minor is a deepening minor. Admission to this minor is for Nanobiology students only. Students are only admitted when they have finalized the first year + 30credit from the second year BSc Nanobiology at the start of the minor period in September.

Minors other than the deepening minor Nanobiology may also be followed at the Erasmus University, TUDelft and Leiden University. Minors at these universities do not need approval from the Board of Examiners Nanobiology. Minors at other universities or self-composed minors need to be approval by the board of examiners.

Article 5e. COMPOSITION OF THE STUDY PROGRAMME OF THE FIRST YEAR; 2016-2017

The study programme for the first year in academic year 2016-2017 is same as for academic year 2015-2016 except for:

The course Biomolecular Dynamics (NB1016) will be renamed to: Molecular Biology. The course code will stay the same. It has no effect on the content of the programme.

First year bachelor program Nanobiology academic year 2016-2017

Paragraph 5 Honours Program

Article 8a: Admission to the Honours program

Requirements will be: average grade ≥ 8.0 , first year completed (= 60 EC), strong motivation (proven capability and willingness to commit for two years) and study plan for extracurricular activities. All Nanobiology students who meet these requirements are welcome to apply for the Honours programme of Nanobiology. Students will be selected by the HP director and coordinator.

Article 8b: HONOURS PROGRAM 2015-2016

Course	Code	credit
Honours programme Seminars	NB2901HPB	2
Honours programme Journal Club	NB2902HPB	4
Honours programme Project	NB2903HPB	7
Honours programme Project – In depth research overview	NB2903HPB-RO	
Honours programme Project – Research proposal	NB2903HPB-RQ	
Honours programme Project – Business plan	NB2903HPB-BP	
Honours programme Broaden-your-experience-project	NB2904HPB	2

Article 8c: HONOURS TRACK 2016-2017

There are no changes in the Honours Programme compared to year 2015-2016

Paragraph 6: Exams

Article 9: FORM OF THE EXAM AND THE ASSESSMENT STRATEGY

1. The form of the exam and the assessment strategy is described for each course in the digital studyguide: <http://www.studiegids.tudelft.nl/>
2. Attendance requirement is specified for each course in the digital studyguide or on Blackboard at the start of the course.
3. Rules on the composition of the final course grade can be found in the "TER" and the "Rules and Regulations of the Exam Committee"

Article 10: Minor

Consists of deepen knowledge and skills in current methods, techniques, and instruments used in Nanobiology research

- 3 Modules of ~6 weeks (10 credits each)
- Students will work in (small) groups
- Entry requirement: **60 credits from the first year + 30 credits from the second year**
- Application: 1-31 May via application form

Each module will be assessed by the responsible faculty/instructors of the module.

Each module needs to be graded sufficient (5.8 or higher) for the student to pass the minor.

In the case one individual module is graded with < 5.8 , the module responsible with the minor coordinator will decide on the re-take. The final grade is the weight average of 3 grades received.

Article 11: BACHELOR THESIS PROJECT

Admission requirements for a student to register for the Bachelor thesis project: **60 credits from the first year plus 60credits from 2nd and 3rd year.**

Preferably all second year courses are finalized. In the case that some second year courses are not finalized before the start of the BSc end project and these courses are relevant for the subject in the BSc end project, the student cannot start with this end project.

Information on the Bachelor end project and a list of participating faculty members and projects can be found on Blackboard: Blackboard Delft > organization> education > applied sciences > Eindprojecten Administratie TNW/Thesis Office Applied Sciences.

Article 12: ORDER OF THE EXAMS

This Article describes the order of the exams and the prerequisites to participate in practical work.

1. Attendance requirement is specified in the digital studyguide or on Blackboard at the start of the course.
2. The laboratory practices in the first year are mandatory. This includes the introductory lectures and the laboratory work.
3. The practice in Electronic Instrumentation in the second year is mandatory and can only be followed when the safety training test on the first practice day is successfully passed.
4. Requirement to take part in the deepening minor Nanobiology is finalizing Labcourse 1 and 2 (NB1062 and NB1066) from the first year

Article 13: SCHEDULE FOR RESITS ACADEMIC YEAR 2015-2016

1st Year

In the first year bachelor phase the resits will be planned as follows.

9-14 January	Friday 24th February	May 22,23,24	14-18 August
Genetics NB1022	Chemistry 2 NB1110	Biomol. Dynamics-1 NB1012	Molecular Biology NB1016
Intro to Nanobiology NB1031		Physics 1a NB1140	Biophysics NB1131
Analysis 1 WI1411NB		Journal Club NB1052	Phys. Biol. of the Cell NB1072
Chemistry 1 NB1102		Analysis 2 WI1423NB	Labcourse-2 NB1066
		Labcourse-1 NB1062	Linear Algebra WI1142NB
		Physics 1b NB1143	Analysis 3 WI1416NB

2nd Year

In the 2nd year the resits for octal 1-6 courses will be scheduled in the evening hours from 18.00-21.00 hours, in the 10th week after the regular exam (holiday not included). Retakes are sometimes scheduled during the day but only without overlap of year 1 and 2 regular exams. Resits for courses in octal 7 and 8 will be in the August retake period (week 5.6)

3rd Year

In the 3rd year the resits for octal 1-6 courses will be scheduled 10 weeks after the regular exam (holiday not included). Resits for courses in octal 7 and 8 will be in the August retake period (week 5.6)

Paragraph 7 Degree Audit

Article 14a: Transition regulation academic year 2014-2015

NB2022: Philosophy and Ethics is a merger of NB2021 and NB2051 from the academic year 2013-2014. Students that missed one of these two (NB2021-NB2051) will have two retake possibilities in the academic year 2014-2015. Students that need to retake both can follow the course NB2022.

NB2211: Due to structural reorganization of this course, the course content will be different from last academic year.

Students that passed the practicals in academic year 2013-2014 only need to retake the exam for the course TN2211.

NB1141 from academic year 2012-2013 is replaced by NB1142 and NB1143 starting in academic year 2013-2014. Students from cohort 2012 will have to pass both courses NB1142 (3EC) and NB1143 (3EC) to have the equivalent of NB1041 (6EC)

WI2240TN will become NB2061 differential equations
