

# Come design the future with us.

## Direct impact

We transform braces and splints from necessities to products people love to wear. With new technologies, such as 3D scanning & 3D printing, we are revolutionizing the industry.

We are seeking enthusiastic **industrial designers/ design interns** to join our skilled R&D team.

## Are you...

- Skilled in prototyping, 3D modelling and design?
- Creative and curious?
- Passionate about improving people's lives?
