

TABLE OF CONTENTS

1	Introduction	1
	<i>Point of departure (5); Perspectives on sustainability (6); Research outline (11)</i>	
2	Common ground for sustainable development, and ground covered by selected sustainability indicators	21
	<i>Introduction (25); Identifying common ground (27); Illustration of the ground covered (31); Discussion (34); Conclusion (37)</i>	
3	Assessment of the contribution of sustainability indicators to sustainable development: a novel approach using fuzzy set theory	41
	<i>Introduction (45); Methodology (46); Fuzzy models to assess sustainable development (50); Discussion (59); Conclusions (61)</i>	
4	Elicitation of expert knowledge for fuzzy evaluation of agricultural production systems	63
	<i>Introduction (67); Criteria to select experts (69); Elicitation of expert knowledge (72); Illustrative example (83); Discussion (90); Conclusion (93)</i>	
5	Fuzzy evaluation of egg production systems for a laying hen's possibility to move	95
	<i>Introduction (99); Materials and methods (101); Results (115); Discussion (118)</i>	
6	General discussion	123
	<i>Research objectives (127); Research results (128); Research contribution to the sustainability debate (134); Research conclusions (135)</i>	
	References	139
	Summary	155
	<i>Research objectives (157); Identifying sustainability criteria (158); Giving meaning to sustainability criteria (159); Research conclusions (161)</i>	
	Samenvatting (Summary in Dutch)	165
	<i>Doelstellingen van dit onderzoek (167); Identificeren van duurzaamheidscriteria (168); Betekenis geven aan duurzaamheidscriteria (169); Conclusies van dit onderzoek (172)</i>	
	Cheers !	175
	<i>Bedankt (177)</i>	
	About the Author	181
	<i>Curriculum Vitae (183)</i>
