# WITH AI

## Project 2: AI-based decision support for climate policy

### Efficient tradeoffs across global climate mitigation goals

### Analysis of distributive justice of climate policy

- 1 Sequencing of infrastructure investments
- 2 Transboundary management
- 3 Water, food and energy sectors

## Project 4: AI-supported policy deliberation and negotiation

### Public policy lifecycle

### Stakeholder deliberations

### AI (NLP) Supported discourse analysis

- Argument mining
- Novelty detection
- Perspective clustering
- Deliberation quality analysis

### A living deliberation map
