Lotte Melenhorst, Sabine Roeser, Marja Elzinga, Merle de Kreuk, Bernard Dam and Rinze Benedictus, (2018) *Vision on Integrity*, TU Delft.

A committee I chaired developed a new integrity policy for TU Delft, based on a consultation of multiple stakeholders.

Sabine Roeser (2012), Morele emoties en risicopolitiek (adjusted reprint of my inaugural lecture in Twente), in Brenninkmeijer, Alex F.M., de Graaf, Beatrice, Roeser, Sabine, Passchier, Wim F. (2012), *Omgaan met omgevingsrisico's en onzekerheden. Hoe doen we dat samen?*, Ministerie van IenM (Dutch Ministry for Environment and Infrastructure).

In addition, I have provided input into other policy reports as a member of various expert panels, e.g. for the COGEM, COVRA Opera, and for a report by the Raad voor de Leefomgeving en Infrastructuur (Council for Environment and Infrastructure) that was submitted to the Dutch Ministry for Environment and Infrastructure; my contributions have been incorporated in the new Dutch Safety Policy in 2014, by explicitly addressing values and emotions.

Other

- Together with Mariëtte Willemsen: Award for the Philosophy Department, VU, from the Board of Directors of the VU for the proposal 'Van missing link naar linking Ms' ('From Missing Link to Linking Ms') to increase the number of women in higher academic positions. The VU submitted our proposal for the national competition for an award that was offered by the Dutch Ministry of Education ('Emancipatieprijs OC&W 2001'). The jury of the Dutch Ministry of Education gave our proposal an 'honorary mention'. It was praised because of its originality and creativity. The Philosophy Department VU has used our award to create a postdoc-position for one year. The candidate is currently full professor at another university.

12. Teaching

Education management

- 2015-2020: on request of the board of TU Delft, I have developed a new strategy for engineering ethics education to ensure mandatory ethics courses for all BSc and MSc students at TU Delft. I have discussed these plans with all directors of education and deans at TU Delft. We have now started to implement this new strategy. I managed the overall process.
- Since Fall 2014 Coordinator course on scientific integrity for all PhD-students at TU Delft
- 2011-2012: Program director executive master Integrale Veiligheid (Management of Integrated Hazard Risk), TU Delft

Overview of courses taught

Including course management, management of co-teachers, course development, lectures, tutorials, examination and essay supervision:

TU Delft:

2020/21

- Coordinator of module on Scientific Integrity for all PhD students of TU Delft

2019/20

- Ethics: lecture and assignment for all 1st year MSc architecture students (ca 600 students)
- Ethics for management of technology: 4 week course for all 1st year MSc students in management of technology (ca 130 students, 2.5 ECTS)
- Ethics of Risky Technologies: 7 week elective course for all MSc students of TU Delft (ca 30 students, 3 or 5 ECTS)
- Ethics and Safety: lecture and assignment for all 1st year mechanical engineering BSc students (ca 600 students)
- Coordinator of module on Scientific Integrity for all PhD students of TU Delft

2018/19

- Ethics: lecture and assignment for all 1st year MSc architecture students (ca 600 students)
- Ethics for management of technology: 4 week course for all 1st year MSc students in management of technology (ca 80 students)
- Ethics of Risky Technologies: 7 week elective course for all MSc students of TU Delft
- Ethics and Safety: lecture and assignment for all 1st year mechanical engineering BSc students (ca 600 students)
- Coordinator of module on Scientific Integrity for all PhD students of TU Delft

2017/18

- Supervision essays honors students
- Ethics for architecture students
- Risk Ethics
- Ethics for management of technology
- Ethics and Safety for mechanical engineering students
- Coordinator of course on Scientific Integrity for all PhD students of TU Delft

2016/17

- Supervision essays honors students
- Ethics for management of technology
- Ethics and Safety for mechanical engineering students
- Coordinator of course on Scientific Integrity for all PhD students of TU Delft

2015/16

- Supervision essays honors students
- Ethics for management of technology
- Ethics and Safety for mechanical engineering students
- Coordinator of course on Scientific Integrity for all PhD students of TU Delft

2014/15

- Ethics for management of technology
- Ethics and Safety for mechanical engineering students
- Coordinator of course on Scientific Integrity for all PhD students of TU Delft

2013/14

- Supervision essays honors students
- Ethics for management of technology
- Ethics and Safety for mechanical engineering students
