

CALL FOR PAPERS

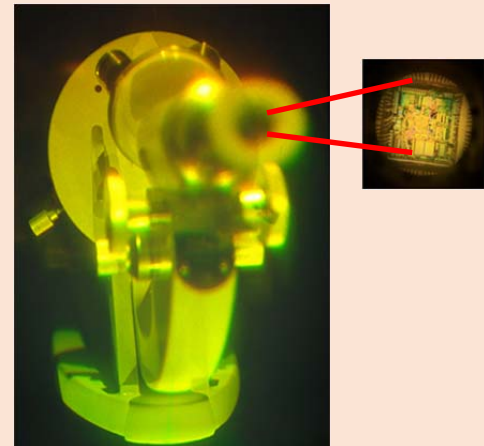

October 9th to 11th 2017 TU Delft, Science Centre, The Netherlands

The **Face2Phase** conference addresses imaging with phase information and covers topics such as lensless imaging, aberration retrieval, adaptive and active optics, ptychography, holography, tomography, phase retrieval and applications.

The following distinguished invited speakers have confirmed their attendance:

- Prof. Martin Booth, Oxford University (UK)
- Dr. Roarke Horstmeyer, Humboldt University Berlin (DE)
- Prof. Malgorzata Kujawinska, Warsaw University of Technology (PL)
- Dr. Andreas Menzel, Paul Scherrer Institute (CH)
- Prof. Allard Mosk, University Utrecht (NL)
- Prof. Wolfgang Osten, University of Stuttgart (DE)
- Prof. John Rodenburg, University of Sheffield (UK)
- Prof. Bahaa Saleh, CREOL, University of Central Florida (USA)
- Prof. Mitsuo Takeda, Utsunomiya University (JP)

In parallel to the conference a **Holography Exhibition** is held and the **SPIE Student Chapter** of TU Delft organizes an **FOCUS Leadership Workshop** event for students. There will be social activities such as a welcome reception and conference dinner.

**Submit an abstract for an oral or poster presentation
before 1 September!**

For registration, abstract submission and visa application see:
