

Academic Year 2024-2025

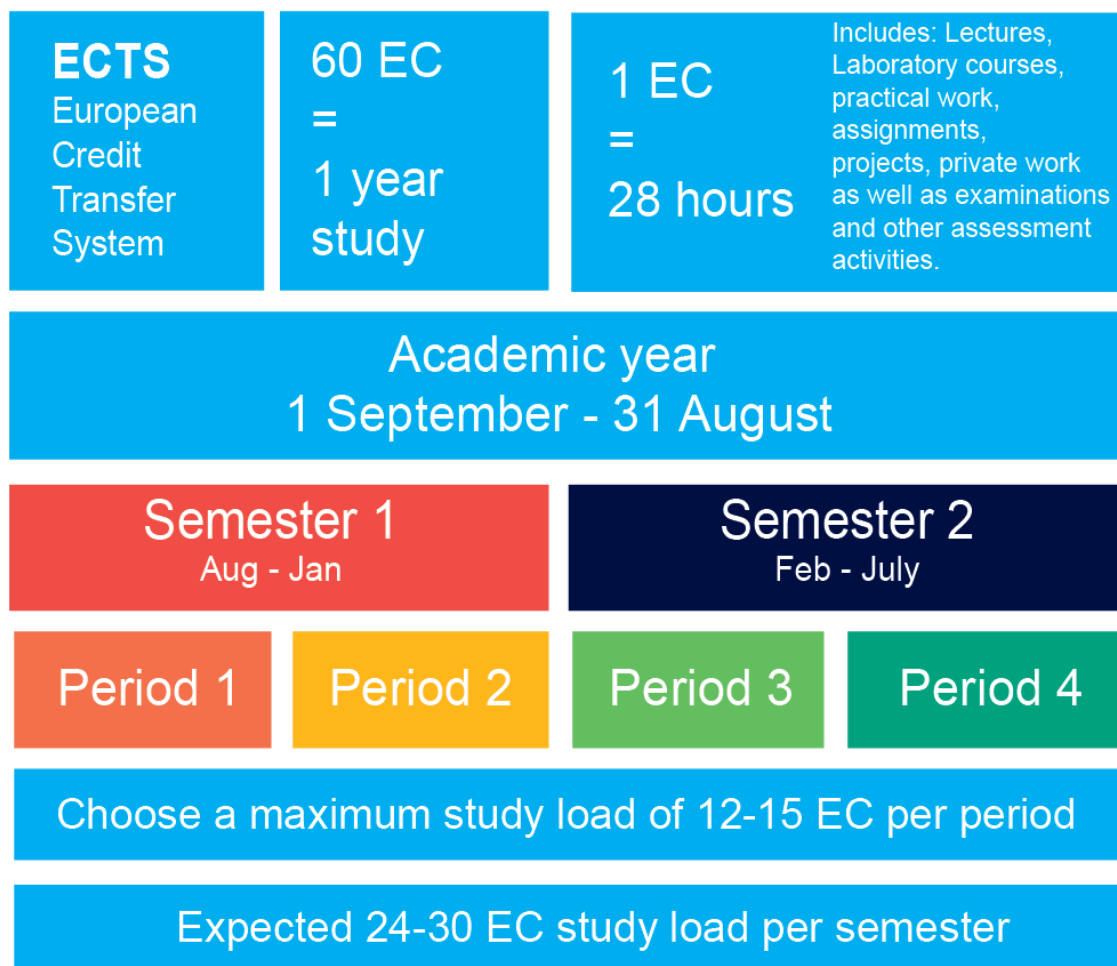

# Industrial Design Engineering

Exchange courses

# Course selection guidelines

The table below shows how the academic year is divided and what is expected of you from each semester and/or period. With the details below of how many EC you are expected to obtain, you will be able to make a study plan that will need to be approved by your home university and TU Delft.

## Things to consider when you choose your courses

- Will you be staying for 1 or 2 semesters? This will affect the number of EC you need to choose.
- You must take a course load equal to 24-30 EC per semester, 12-15 EC per period.
- More detailed information about the courses can be found via the [study guide](#). Guidelines on how to use it can be found [here](#) in the course manual.
- Changes to your course plan after your arrival still need to meet the above requirements.
- Students are not permitted to re-sit exams after the end of the official exchange period. Alternative course/s will need to be taken at your home university when you return.

# Industrial Design Engineering

## Courses for 2024

The Faculty of **Industrial Design Engineering** offers fixed course packages. During the application students can indicate their first, second and third choice. Information is available [here](#).

### **Bachelor courses Faculty of Industrial Design Engineering**

(Only available for exchange students enrolled at the faculty of Industrial Design Engineering)

During the first semester (Fall):

For Bachelor exchange students in Fall there are English taught Minor Programmes available. On this [website](#), you can see which Minor Programmes you can choose.

During the second semester (Spring):

For Bachelor exchange students in Spring there are many English electives available. After students are admitted a list of possible courses with time slots will be sent, so that students can make their final choice. On this [website](#), you can see which electives are available.

### **Master exchange course packages**

Students who have finished their bachelor or have finished at least 3 years of bachelor's education on the moment of application can apply for fixed course Master packages. During the application students can indicate their first, second and third choice. On this [website](#), you can see which master packages you can choose.

### **IMPORTANT**

- Since we cannot guarantee enrolment in your first choice, it is obligatory to select a different second choice and a third choice.
- In case you apply for two semesters you only must choose a package for the first semester.
- It is not possible to combine courses of different packages, it is, however, possible to do part of a course package if you meet the 24 EC requirement.
- It is not allowed to complete Thesis Projects.
- Exchange students from other faculties cannot obtain credits at the Faculty of Industrial Design Engineering.
- Before the start of the exchange period, the final fixed course package will be confirmed. After the fixed course package is confirmed, it is no longer possible to change or add courses and the place in the course package is guaranteed.
