

Altair campus-wide license

Access for employees and students

The campus-wide license is available to all employees and students of the TU Delft:

- **Terms of Use:**
The software may be used for teaching content and research projects of the TU Delft. Commercial use of the software is not permitted.
- **Access to the TUD Altair license:**
The license can be used from all networks on the TUD campus and via EduVPN. When installing and/or starting the application, on TUD campus or EduVPN, in the “*ALTAIR_LICENSE_PATH=Port@serverIP*” environment variable you must refer to:
Server: altair-campus.lic.tudelft.nl
Port : 27099
- **Installation help:**
For assistance with installing Altair programs, please contact the Service desk and/or Desktop support group at your faculty building or make a request via the [Software Request form](#) in the [SelfservicePortal](#).

Resources

- Online material
The website <https://www.altair.com/academic-program> offers free e-books and tutorials as well as teaching packages for lecturers and students.
The YouTube channels <https://www.youtube.com/@AltairHowTo> as well as <https://www.youtube.com/user/HyperWorksUniversity> offer demos and application examples.
- Contact persons and support
 - For contractual questions, please contact Frans Broos (TU Delft, EEMCS department)
 - At <https://community.altair.com> you can find documentation and a knowledge Base.
 - The Altair Forum https://community.altair.com/community?id=altair_forums#products can be used for application specific questions.
