

TU DELFT | TEACHING ACADEMY

2022 in overview

[Tudelft.nl/teachingacademy](https://tudelft.nl/teachingacademy)

The Teaching Academy's mission:
"collaboratively enhance engineering education across faculty boundaries".

we **CONNECT** (ideas and people)
we **SHARE** (knowledge and experience)
we **SPOTLIGHT** (lecturers and educational initiatives/innovations)
we **EXPERIMENT** (in the Teaching Lab for example)

To connect, share, spotlight & experiment, we organise various knowledge-sharing activities, lead educational projects & the TU Delft Education Fellowship, facilitate experiments, grant Teaching Awards and organise the TU Delft Education Day.

TU DELFT EDUCATION FELLOWS

The TU Delft Education Fellowship recognises and appreciates lecturers for educational innovation and boosts their impact on educational development. Each year new Education Fellows are nominated by the faculty deans and are appointed by a selection board chaired by the Vice President Education. 3 new Education Fellows started their Education Fellowship in 2022 and 5 Education Fellows were appointed to start their fellowship in 2023.

220

TU DELFT EDUCATION DAY PARTICIPANTS

Each year the Teaching Academy organises The TU Delft Education Day; the event of the year to get inspired by fellow lecturers from all faculties. The 2022 theme 'The Connection-creating opportunities' was divided into three focus areas: People, Education & Research, and Future & Society. With 220 participants in the Teaching Lab, 2 keynotes, 3 Soapbox sessions, 12 sessions by lecturers and 'extra time to connect', it was an inspiring, interactive event.

100 DAYS OF ...

The '100 DAYS OF ...' is an initiative organised by 4TU.CEE, LDE-CEL, TLS, the Extension School and the TU Delft Teaching Academy. In 100 days various events are organised to collaboratively explore a theme in TU Delft's engineering education. In 2022 the 'Data for Learning' theme was introduced. For '100 days of ... Reflection', the theme introduced in 2021, a white paper has been written.
