

# Delft Measures: Citizen Science

- Citizen Science project using the Alecto-WS5500 Weather Station
- Urban Climate of Delft
- Do setup & maintenance influence data quality?
  - Controlled setting (TU Delft)
  - **Private space (citizen scientists)**

# Test @ The Green Village

# But what's next? → The Campus!

- The TU Campus as a living lab
- A place where we spend a lot of time
- What are the microclimates?
- ~ dozen stations still to install... but where?
- During the Festival Activities: give your suggestions!
- Adopt a weather station!
