

# Validating Energy Hubs in Fieldlab Environments

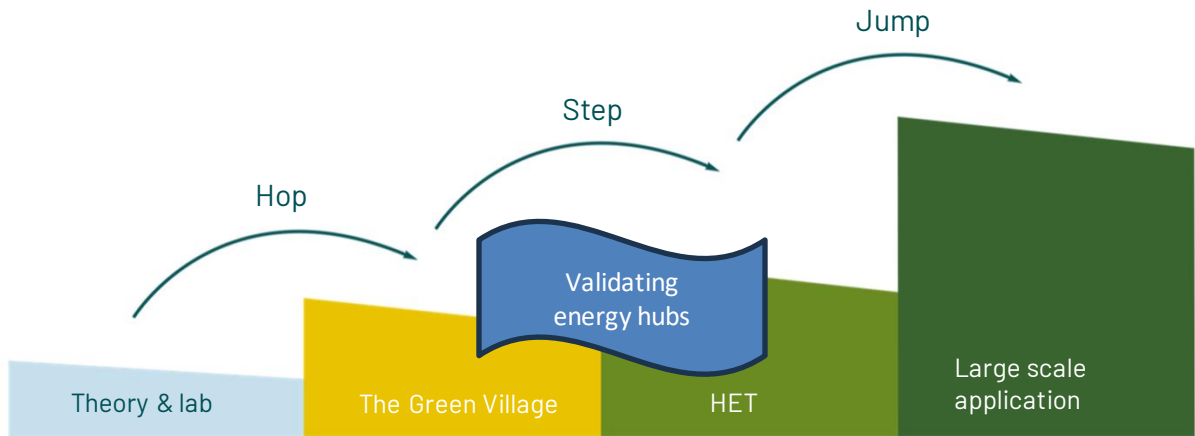

Arnoud van der Zee – Program Manager Future Energy Systems

THE  
GREEN  
VILLAGE

# The 'hop' & 'step' to large scale application

THE  
GREEN  
VILLAGE

# Questions that have our attention when validating energyhubs in pilots

Is it reliable?

Business model?

Is it safe?

Not in Building  
Decree

Is it cyber  
secure?

Is it practical?

Rules and  
regulations?

Privacy?

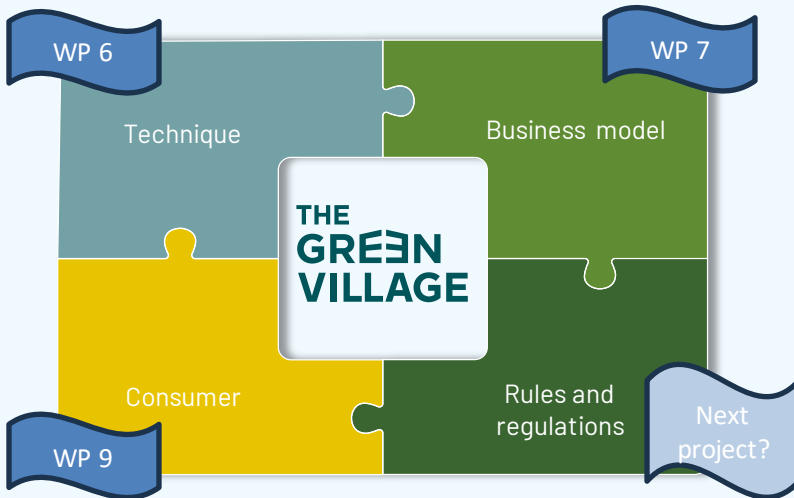

Can we make it  
work even  
better?

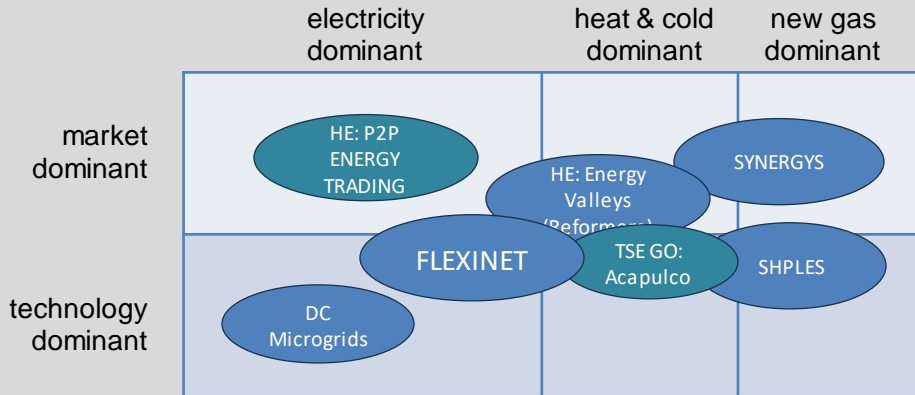

Does the user  
understand how  
it works?

# Key to successful acceleration of sustainable systems

THE  
GREEN  
VILLAGE

# Energy hubs show big potential → quite some challenges to overcome

Benefits like:  
10x smaller  
grid  
connection  
needed
